REQUEST FOR PROPOSAL

Independent Assessment of the Emergency Preparedness Working Group (EPWG)

Background

The Senior Officials Steering Committee on ECOTECH (SCE) has a requirement for an independent consultant to review the operations and structure of APEC working groups to ensure economic and technical cooperation (ECOTECH) activities are targeted, effective, efficient, and make the best use of scarce resources. The output of the independent assessments is a report providing recommendations designed to ensure that the working group is responsive to APEC's current priorities and contributes to the achievement of APEC's overall vision and objectives.

To continue with the program of regular reviews, the SCE has decided to undertake an independent assessment of the EPWG. This independent assessment will address a wide range of needs of EPWG in order to strengthen its work processes. The recommendations of the assessment will be provided to the SCE in 2015.

Consultancy Terms of Reference (ToR)

The Contractor will be engaged by the APEC Secretariat to provide the following consultancy services:

- Work cooperatively with the EPWG Chair and members, the SCE, and the APEC Secretariat to provide a robust analysis of the work and operations of the group and recommendations for ways to ensure the overall goals and objectives of APEC are met. In undertaking the tasks the consultant will:
- Review key APEC policy documents, including Leaders' and Ministers statements, EPWG records of meetings, key project documentation and activities to assess the outcomes and how EPWG supports the main objectives/goals of APEC and their impacts in APEC member economies;
- Evaluate whether EPWG is operating effectively and efficiently;
- Whether the group's Terms of Reference, strategic plan or operations could be modified to better respond to APEC ECOTECH priorities and contribute to the achievement of APEC goals;

- Finalize an array of recommendations on the above-mentioned areas. Recommendations are to be provided in two lists: the first list containing a maximum of 5 decision points for consideration by SCE to provide further instruction to the group, and the second list covering those recommended actions that can be further discussed for implementation by the EPWG itself.

Final reports are expected to be delivered to the second SCE meeting of 2015 (date is still to be determined but is anticipated for May 2015) unless the first meeting of the EPWG is held less than 4 weeks prior to SCE2 in which case the timelines will be agreed between contractor and the SCE Program Director.

Annex

Structure and Contents of the Independent Assessment Report

The structure of the report should follow the format below, it is expected that recommendations provided will follow directly from the analysis contained in the report. This reporting template is not intended to limit the scope of the work of independent assessments. It provides guidance on the types of inquiry that have been of value in previous assessments and in a format conducive to taking effective implementation actions based upon the rationales behind each recommendation.

The limit of 30 pages is a maximum but it is not expected that every report will reach this limit. APEC experience suggests that a shorter report can have a greater impact as more people will take the time to read and understand the recommendations. For this same reason the value of the Executive Summary cannot be overstated as stakeholders less involved in the process may rely on this summary to learn the key messages of the report.

The divisions between the sections of this report are not fixed. For example an overarching goal of the assessment is to determine the extent to which the work of the forum aligns with APEC priorities: this work includes projects, forum operations and cooperation with other organizations including the private sector. The assessor is expected to use their best judgment on how to manage these linkages to ensure a coherent and comprehensible approach.

There are also some overarching concerns that should be taken into consideration throughout the report, this includes the impact of gender on the work of the forum. Notably, the creation of the Policy Partnership on Women and the Economy has placed significant emphasis on promoting practical ways of integrating gender concerns in APEC activities. It is also anticipated that the results of the survey and observations made during attendance at the forum meeting will inform the contents of all sections of this report.
