

# **International Workshop on Implementation and Utilization for Energy Management System (EnMS)**

**15-16 October, Solar Valley Micro-E Hotel, Dezhou City, Shandong Province**

An International workshop on implementation and utilization for EnMS will be held in Dezhou City, Shandong Province from 15-16 October 2010. The conference will be held at the time of International EnMS Standard ISO 50001 achieving positive progresses and just before the 4<sup>th</sup> plenary meeting of ISO/PC242, and its participants include the leaders and experts from the ISO50001 standards drafting countries, wherein, some of the drafting countries have already formulated and implemented the EnMS standards and have rich practical experience in this system. The convening of the conference has great significance for:

- learning and exchanging work experience on the construction of EnMS from various countries,
- displaying the working achievements of the construction of EnMS of China, and
- studying the implementation system building of energy management system in the future for our country.

## **I. Time and Subjects of the Conference**

### **October 15<sup>th</sup>, 2010**

Exchange the ideas and practice of the popularization and application of EnMS. The following contents will be emphatically exchanged:

1. The construction, implementation, supervision and assessment mechanism of EnMS:
  - System construction
  - Implementation of the popularizing mechanism
  - Supervision and performance assessment
2. The best practice and implementation experience of EnMS:
  - High energy consumption industries
  - Public institutions
  - Other industries
3. Promotion of EnMS application on the construction of low-carbon city

### **October 16<sup>th</sup>, 2010**

Field trip on the site of enterprises which are in the process of EnMS construction, low-carbon city construction projects such as solar energy of Dezhou city in Shandong province

## II. Place of the Conference

Solar Valley Micro-E Hotel in Dezhou City of Shandong Province  
Address: South Area of Huangming Riyuetan Mansion, Solar Valley Avenue,  
Economic Development Zone, Dezhou City, Shandong Province

## III. Main Schedule of the Conference

1. Check in all day on October 14<sup>th</sup>, 2010 (Thursday)
2. Hold the conference all day on October 15<sup>th</sup>, 2010 (Friday)  
The conference will be hold in the manners of giving lecture by experts, asking questions in interactive mode and so on. After conference dinner party the green solar lighting for public facilities in Dezhou City of Shandong Province will be visited from 8 p.m. to 9 p.m.
3. October 16<sup>th</sup>, 2010 (Saturday)
  - Field trip in the morning. Visiting sites: China Solar Valley, Weilai City Solar Energy Integrated Building, Science and Technology Museum of Solar Energy, Zhongda Bright Company, Jingjin Filter Press Group, and the energy management system construction of Yucheng Zhongnong Runtian Chemical Industry Co., Ltd.
  - The conference will end in the afternoon. Leaders and experts of international and national sectors will go back to Beijing by CRH (China Railway High-speed) with the train number of D62, departing at 14:31).

## IV. Sponsors

Standardization Administration of China (SAC), Shandong Economic and Informationization Commission, People's Government of Dezhou City Shandong Province

## V. Organizer

China National Institute of Standardization (CNIS) and Economic and Informationization Commission of Dezhou City Shandong Province

## VI. Return Receipt of Participants

Name	Country	Unit/Position	Contact information	Join the group trip or not

Note: All the international speakers' cost in Dezhou during the conference and travel expenses between Beijing and Dezhou will be covered by the organizer. The organizer will arrange a group trip for the participants from Beijing to Dezhou by train

#### **VI. Contact Person and Tel.**

Please return the above receipt of participants to Mr. Wang Geng, China National Institute of Standardization (CNIS), +86-15811008180, [wanggen@cnis.gov.cn](mailto:wanggen@cnis.gov.cn).

#### **Brief Introduction of Solar Valley Micro-E International Hotel:**

Located in Dezhou City of Shandong Province which has the famous reputation since the ancient times, Solar Valley Micro-E International Hotel is the first large-scaled solar energy with "Micro-Emission" business meeting hotel in the world. The hotel is placed in China Solar Valley, the biggest solar energy industry concentration area in China, the biggest application and popularization sample base of solar energy in the world as well as the national AAA scenic zone. The Solar Valley has convenient transportation all round with 20 minutes-driving from Dezhou Bus Station and Train Station, one hour-driving from Jinan International Airport and 2 hours-driving from Tianjin Seaport.

The main building of the hotel forms a classic, elegant and beautiful shape of "Sun Moon Altar". The hotel adopts the solar energy collecting system with heat collection pipes overspreading the roof, which not only can provide hot water at any time but also can satisfy the heating of air conditioner in winters, achieving the real energy conservation and environment protection. Around the building are solar energy panels, which can save solar energy in the daytime and lighten the neon lights of the hotel outside walls at night, making a magnificent and brilliant scene. The energy-saving insulated glass of the whole building as well as the insulated panels added outside the wall can keep warm and insulate against heat, at the same time against the noises from outside, providing you a peaceful and quiet relaxed time.

The hotel has its interior with luxurious and elegant decoration, sound facilities, graceful environment and complete functions, which is a comprehensive five-star (undetermined) business and meeting hotel combining rooms, dining, meeting and entertainment into one. The total building area of the hotel is 80,000 square meters with more than 600 rooms and more than 3,000 tables, meanwhile, recreational facilities such as swimming pools indoors and outdoors, gymnasiums, Taiji assembly hall (SPA, hydrotherapy), etc. are set up inside the hotel. Equipped with more than 20 meeting rooms, complete meeting facilities as well as simultaneous interpretation system, the hotel can provide the most convenient and perfect service for various conferences at home and abroad.
