16th APEC Ministerial Meeting
Santiago, Chile
17-18 November 2004

Best Practice for RTAs/FTAs in APEC¹

RTAs/FTAs involving APEC economies can best support the achievement of the APEC Bogor Goals by having the following characteristics:

Consistency with APEC Principles and Goals

- They address the relevant areas in Part I (Liberalization and Facilitation) of the Osaka Action Agenda (OAA) and they are consistent with its General Principles. In this way they help to ensure that APEC accomplishes the free trade and investment goals set out in the 1994 Bogor Leaders Declaration.
- They build upon work being undertaken by APEC.
- Consistent with APEC goals, they promote structural reform among the parties through the implementation of transparent, open and non-discriminatory regulatory frameworks and decision-making processes.

Consistency with the WTO

- They are fully consistent with the disciplines of the WTO, especially those contained in Article XXIV of the GATT and Article V of the GATS.
- When they involve developing economies to whom the Enabling Clause applies, they are, whenever possible, consistent with Article XXIV of the GATT and Article V of the GATS.

Go beyond WTO commitments

- In areas that are covered by the WTO, they build upon existing WTO obligations. They also explore commitments related to trade and investment in areas not covered, or only partly covered, by the WTO. By so doing, APEC economies are in a better position to provide leadership in any future WTO negotiations on these issues.

¹ Regional Trade Arrangements (RTAs), Free Trade Agreements (FTAs), and other Preferential Arrangements

Comprehensiveness

- They deliver the maximum economic benefits to the parties by being comprehensive in scope, and providing for liberalization in all sectors. They therefore eliminate barriers to trade and investment between the Parties, including tariffs and non-tariff measures, and barriers to trade in services.
- Phase-out periods for tariffs and quotas in sensitive sectors are kept to a minimum, and take into account the different levels of development among the parties. Thus, they are seen as an opportunity to undertake liberalization in all sectors as a first step towards multilateral liberalization at a later stage.

Transparency

- By making the texts of RTAs/FTAs, including any annexes or schedules, readily available, the Parties ensure that business is in the best position to understand and take advantage of liberalized trade conditions. Once they have been signed, agreements are made public, in English wherever possible, through official websites as well as through the APEC Secretariat website.
- Member economies notify and report their new and existing agreements in line with WTO obligations and procedures.

Trade Facilitation

- Recognizing that regulatory and administrative requirements and processes can constitute significant barriers to trade, they include practical measures and cooperative efforts to facilitate trade and reduce transaction costs for business consistent with relevant WTO provisions and APEC principles.

Mechanisms for consultation and dispute settlement

- Recognizing that disputes over implementation of RTAs/FTAs can be costly and can raise uncertainty for business, they include proper mechanisms to prevent and resolve disagreements in an expeditious manner, such as through consultation, mediation or arbitration, avoiding duplication with the WTO dispute settlement mechanism where appropriate.

Simple Rules of Origin that facilitate trade

- To avoid the possibility of high compliance costs for business, Rules of Origin (ROOs) are easy to understand and to comply with. Wherever possible, an economy's ROOs are consistent across all of its FTAs and RTAs.
- They recognize the increasingly globalized nature of production and the achievements of APEC in promoting regional economic integration by adopting ROOs that maximize trade creation and minimize trade distortion.

Cooperation

- They include commitments on economic and technical cooperation in the relevant areas reflected in Part II of the OAA by providing scope for the parties to exchange views and develop common understandings in which future interaction will help ensure these agreements have maximum utility and benefit to all parties.

Sustainable Development

- Reflecting the inter-dependent and mutually supportive linkages between the three pillars of sustainable development – economic development, social development and environmental protection – of which trade is an integral component, they reinforce the objectives of sustainable development.

Accession of Third Parties

- Consistent with APEC's philosophy of open regionalism and as a way to contribute to the momentum for liberalization throughout the APEC region, they are open to the possibility for accession of third parties on negotiated terms and conditions.

Provision for periodic review

- They allow for periodic review to ensure full implementation of the terms of the agreement and to ensure the terms continue to provide the maximum possible economic benefit to the parties in the face of changing economic circumstances and trade and investment flows. Periodic review helps to maintain the momentum for domestic reform and further liberalization by addressing areas that may not have been considered during the original negotiations, promoting deeper liberalization and introducing more sophisticated mechanisms for cooperation as the economies of the Parties become more integrated.
