

The Asia-Pacific Economic Cooperation Secretariat is seeking to replace its Palo-Alto Networks PA-3020 with a similar capacity Palo-Alto Networks security appliance and seek quotations from Singapore-based vendors for this system.

The proposal must include installation and migration from the current PA-3020 and must include:

- minimum 3 year premium support for the appliance and its software.
- minimum 3 year subscriptions to Threat Prevention, WildFire and Advanced URL Filtering services.

Please send detailed quotations and availability to procurement@apec.org by 23rd September, 2022. The APEC Secretariat will send out the purchase order for these items by the 30th of September, 2022 to the selected vendor.
