

Enhancing Foods with Function Claim system for MSME business

APEC Seminar on partnerships between companies and rural areas for sustainable development of agriculture in Asia-Pacific Region

August 21st, 2019

Puerto Varas, Chile

**Masafumi Hashimoto
Representative Director at Kemin Japan K.K.
Chairman at JAOHFA (Japan Alliance of Health Food Associations)**

THIS IS KEMIN

- Founded in 1961 by R.W. and Mary Nelson
- Family owned and operated
- More than 500 patents and applications
- Annual revenue exceeds \$900 million
- Transforming 80% of the world's population every day with our products and services

© Kemin Industries, Inc. and its group of companies 2019. All rights reserved. ®™ Trademarks of Kemin Industries, Inc., U.S.A.
Certain statements, product labeling and claims may differ by geography or as required by government requirements.

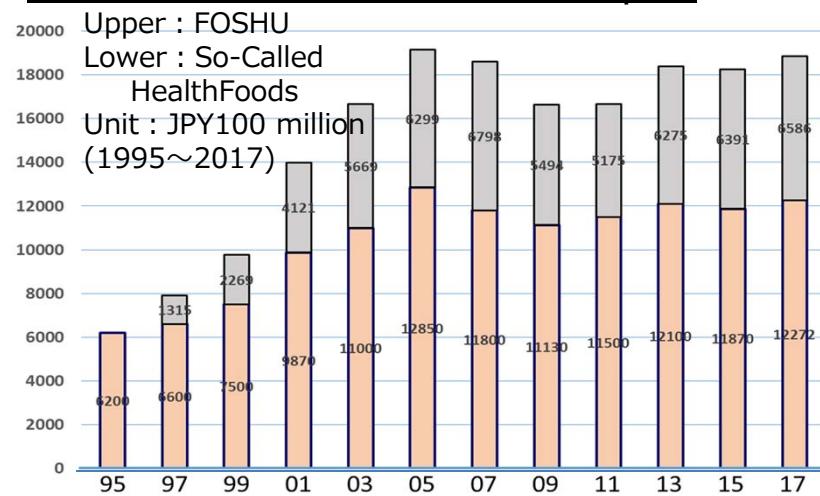

Outline of Japan Alliance of Health Food Associations

- Established as an alliance of 8 industry associations in 2009
- Registered as a General Incorporated Association in 2016
- Aims to aid responsible growth of the industry
- Regular exchange of information with Japanese Government

Major Association Members	No. of Members	Characteristics
Health and Food Forum	45	Large Food Companies
Pharmaceutical Health Food Study Group	25	Pharmaceutical Companies
Association of International Foods and Nutrition	62	International Harmonization
CRN•JAPAN	120	Ingredient & Contract Manufacturers
Supplement Executive Committee	44	Regulatory Systems for Health Foods
Japan Natural Health Food Association	309	Natural Food Sellers
Japan Health and Nutrition Food Association	690	Public Interest Incorporated Foundation, GMP, Various Services

US and Japan Health Food Market Change in 20 years

1. Health Food Market in Japan

3 fold in first 10 yrs, stagnat in last 10 yrs

(健康産業新聞及び日本健康・栄養食品協会のデータより作成)

2. US DS Market

Market doubled every 10 yrs

(株)グローバルニュートリショングループ提供データより作成)

3. Market Comparison(Unit:USD100 billion)

	1994	2004	2014
US (Dietary Supplement)	0.9	2.0	3.7
Japan (Health Food)	0.6	1.8	1.8

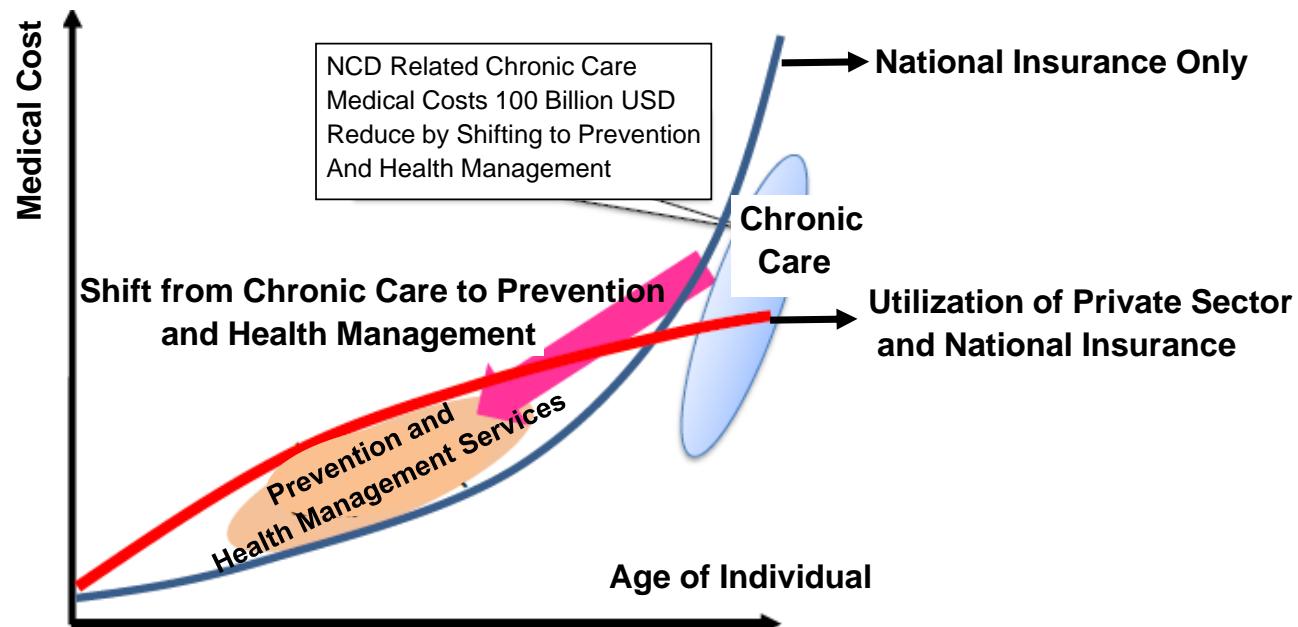

Medical Care Expenses Forecast in Japan

	2000	2015	2025
Medical Cost	30	40	54
Care Cost	4	10	20

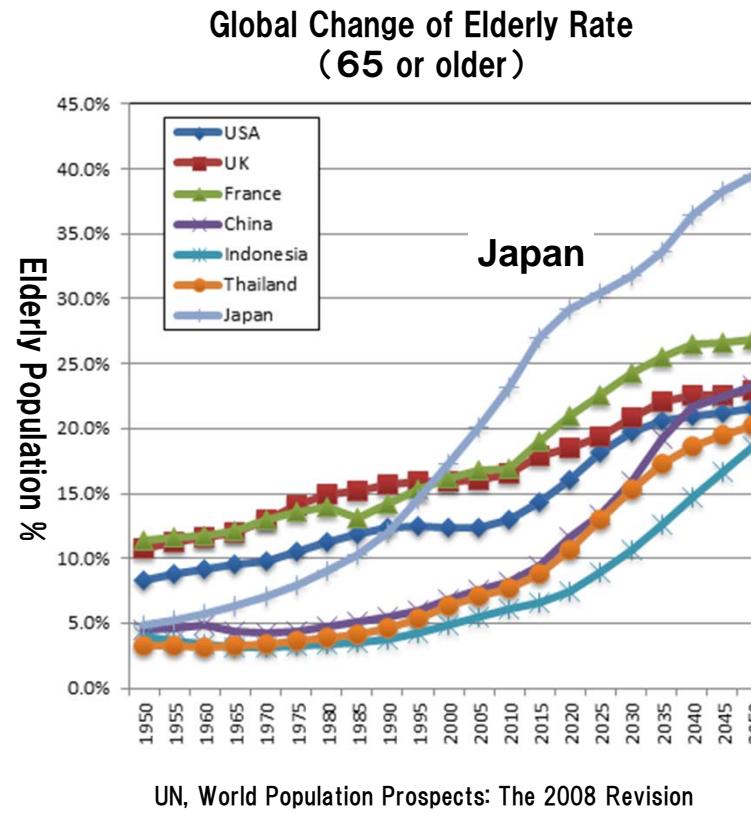

「ピコシムのブログ」2016/9/14から引用 ; Unit : 100 billion

How can our industry contribute to reduce these costs?

View of Next Generation Health Care Industry Committee at METI (Ministry of Economy, Trade and Industry)

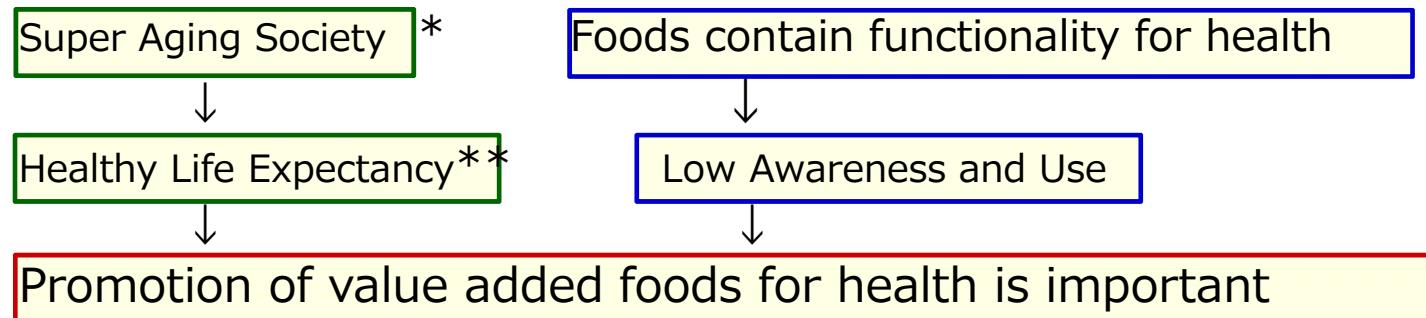

Evolution of Aging in Japan and World

- Japan is high in elderly rate but absolute number is serious in overseas
- Japan's current challenge is global challenge in the future
 - Japan's success model may contribute for global situation in the future

FFC (Foods with Function Claim)

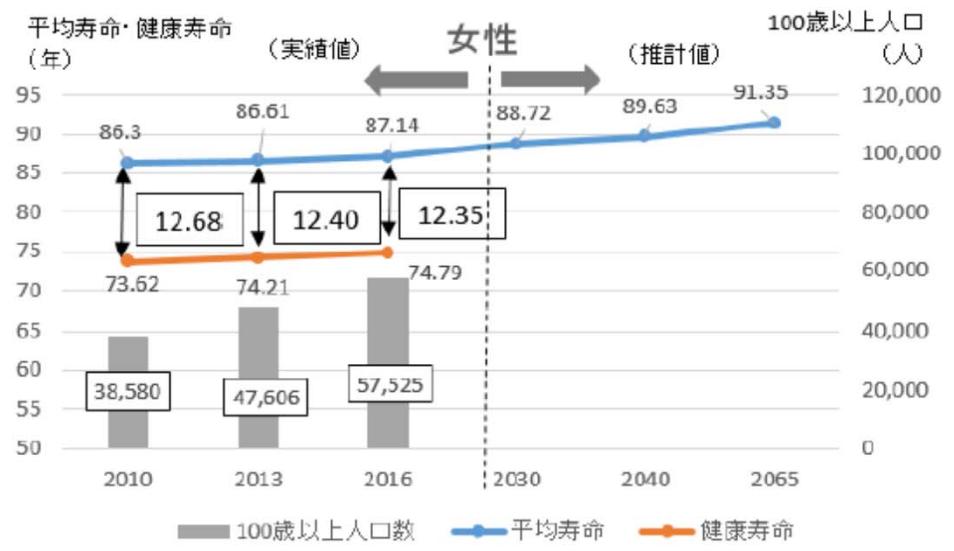

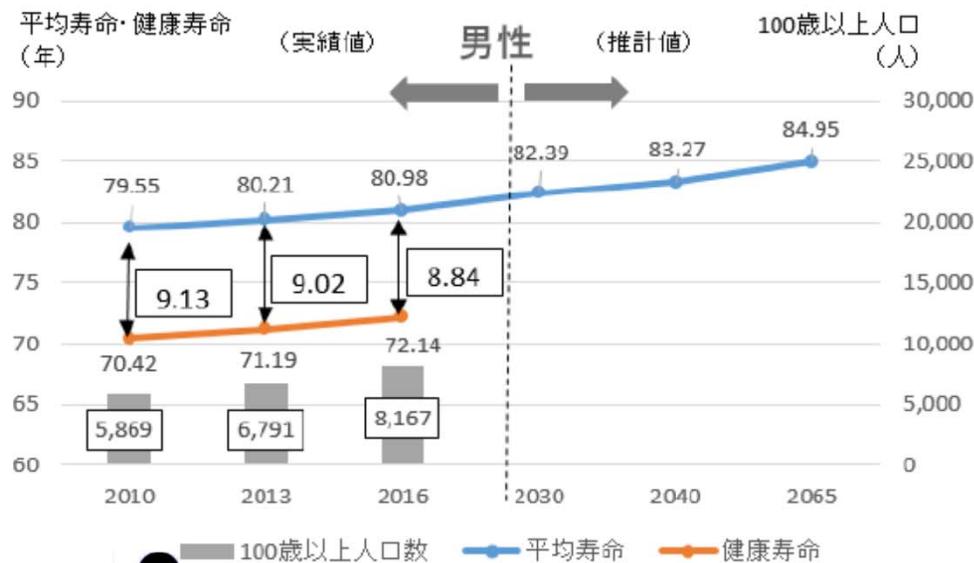

Added Value of Health Foods

FFC system is a good promotion tool

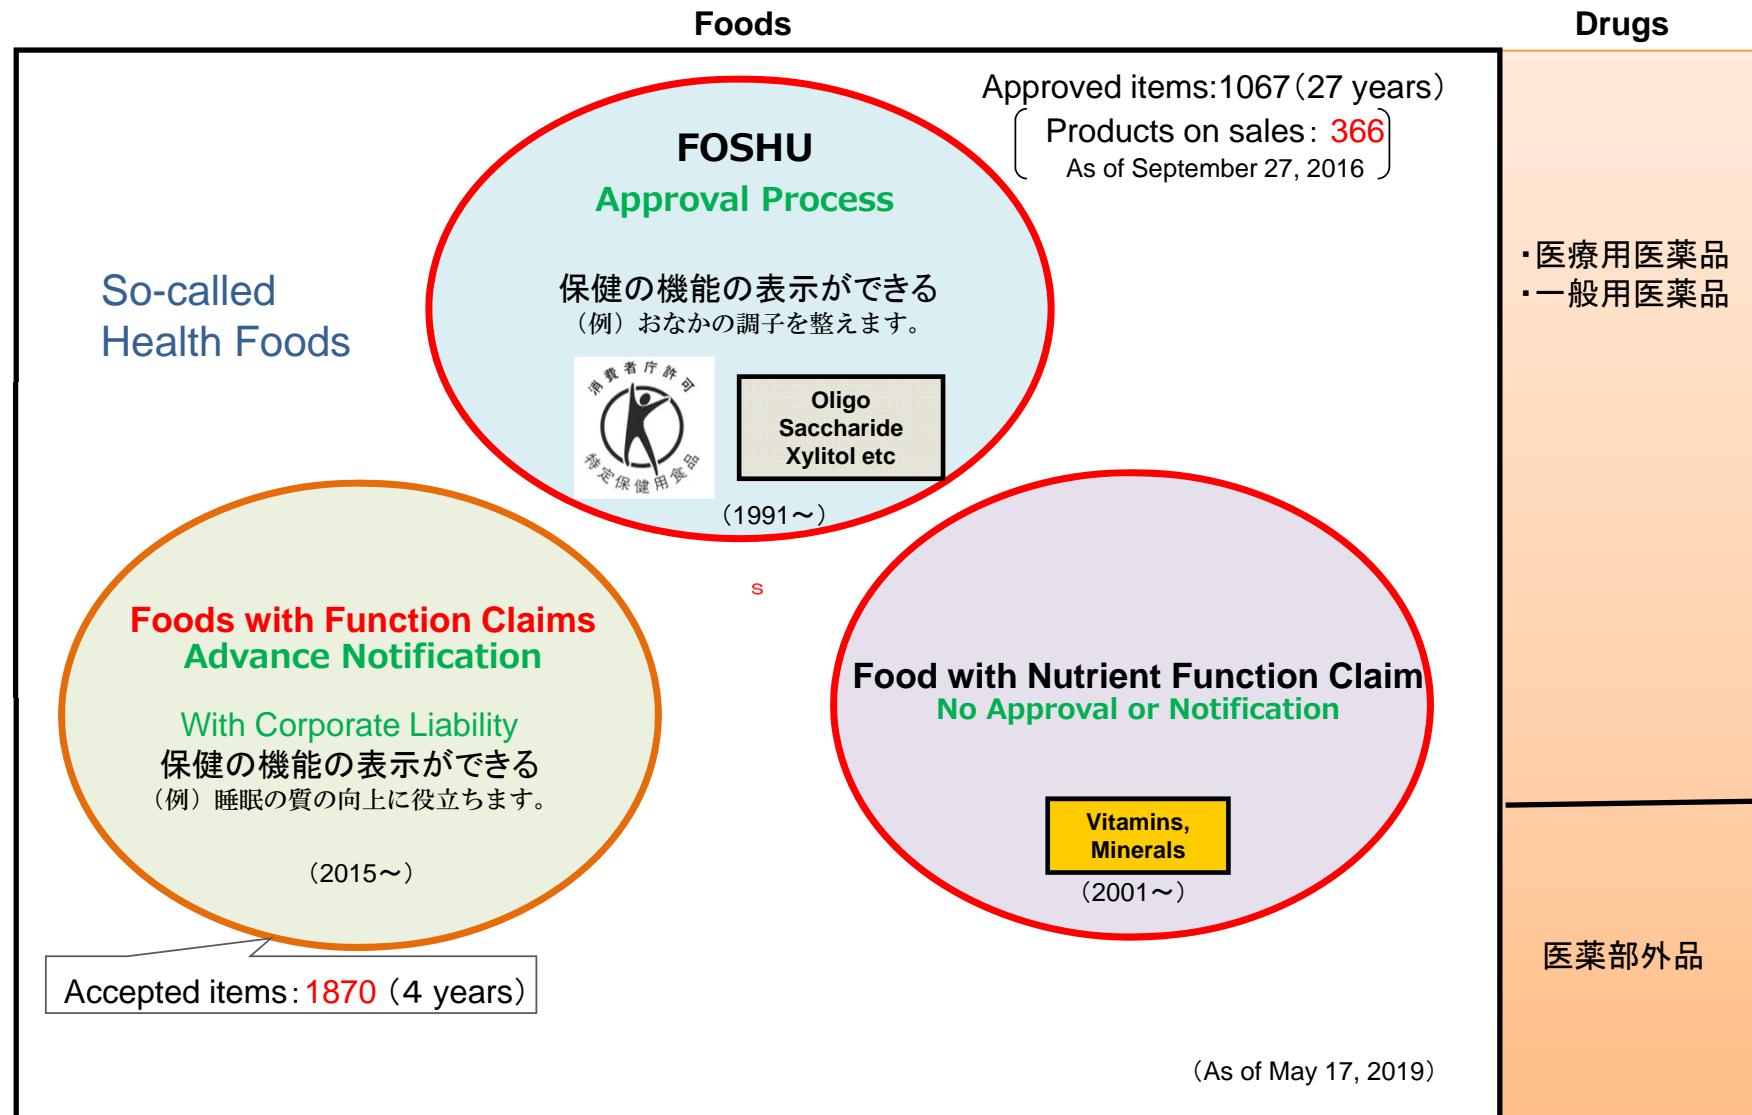

Gap Between Average LE and Healthy LE is narrowing

Foods can contribute to help narrow the gap

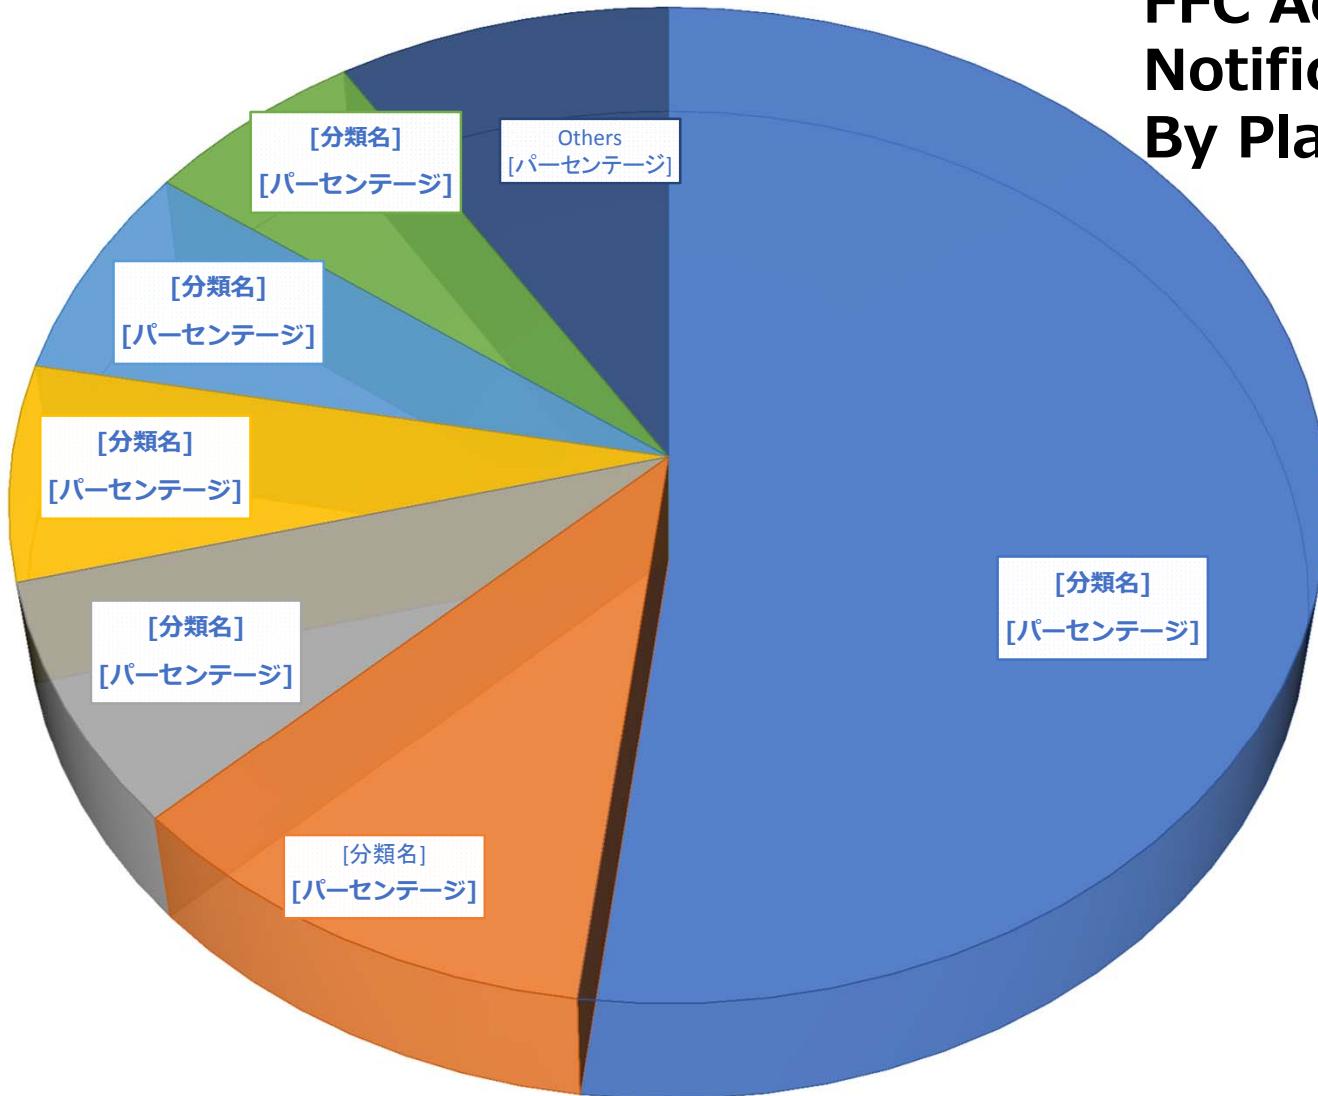

http://www.soumu.go.jp/main_content/000521333.pdf

3 categories of health foods that can make function claims

FFC Accepted Notification Items By Platform

2019年7月8日時点

Yoshinoya FFC Beef Bowl with Salacia

Function Claim:

This product contains Salacinol derived from Salacia. Salacinol is reported to reduce absorption of sugar from diet and moderate the rise of postprandial blood glucose level

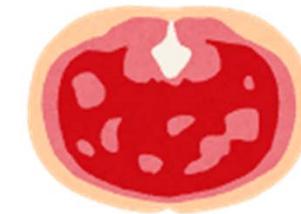

Tsugaru Hirosaki Farmers' Cooperative

Function Claim:

Procyanidin derived from apple is reported to reduce visceral fat

内臓脂肪を減らす！

食品として、15年10月に新

販路網を最新の設備で導入した全国5拠点で生産している。配荷先の97%をスーパーと百貨店で占め、主力のモヤシ商品は、1袋あたり平均50万～100万パックを東北から中国・四国地方の幅広いエリアへ出荷している。2017年5月期売上高は121億円となり、37年連続で過去最高値を更新した。うちモヤシ事業売上高は約75億円。同社売り上げの約6割をモヤシ事業が占めていたことになるが、モヤシ化した野菜なので、どの生産者にとっても収益を確保が課題とされていて、同社では原料種子の安定調達や、長年にわたる

事業体質の改善へ向けた特に重視したのが、価格に拘わらないモヤシの価値づくりだ。そこで既存品の中でも高価格で発芽した大豆が成長していった「大豆もやし」には、大豆インソラボンの機能性が含まれている点に着目した。そんな折、14年春に生鮮品が機能性表示食品対象になる可能

性が示されたことから、「大豆もやしで、何としても生鮮野菜初の機能性表示食品認可を得しよ」と決意した。(中田氏)

- Food service, restaurants, retailer, wholesale need to be covered

ASEAN's Effort for Harmonization on Traditional Medicines and Health Supplements

In support of the free flow of traditional medicines and health supplements in the ASEAN region.

Reducing the differences in national standards, technical regulations, and conformity assessment procedures that assure the safety, quality, efficacy and claimed benefits.

Korea Food Beverage News July 2019

Korea Food Industry Promotion Forum (Seoul, Korea)

July 19, 2019

한국식품산업진흥포럼이 19일 서울 양재동 소재 aT센터에서 개최한 '일반식품의 기능성 표시 허용에 따른 식품산업계의 대응과 역할' 주제 심포지엄에서 채수원 전북대병원 기능성식품임상시험지원센터장은 "최근 일본 기능성 표시식품 전체 신고건수는 SR에 의한 것이 94% 인체시험은 6%로 나타났다. 기능성표시식품 신고건 중 사용빈도 상위 5개 관여성분(난스화성엑스트린, GABA, DHA/EPA, 루테인, 은행잎주출물-총단백 대비 제품비율 94.5%)에 대한 임상연구가 펍메데(Pubmed)검색결과 성분별로 약 300~800여건이 존재했다"라며 "일본은 특정보건용식품제도를 30년간 시행하면서 축적된 경험과 자국민을 대상으로 한 기능성관여성분 및 제품에 대한 하루 섭취량, 안전성 관리의 자료가 충분히 확보 돼 있어 기능성표시식품제도가 활성화 될 측면이 있다"고 주장했다.

△한국산업진흥포럼 주최로 19일 서울 양재동 aT센터에서 열린 '일반식품의 기능성 표시 허용에 따른 식품산업계의 대응과 역할' 심포지엄에서는, 일본의 기능성표시식품제도가 30년 경험을 토대로 성공한 것처럼 우리나라에서도 제도 정착 및 활성화를 위해선 지속적이고 충분한 자료와 문헌고찰이 필요하다는 주장이 제기됐다.

Chinese Taipei Japan Health Food Industry Joint Seminar August 2019

JAOHFA (Japan Alliance of Health Food Associations), AIFN (Association of International Food and Nutrition)
Chinese Taipei-Japan Industrial Collaboration Promotion Office (TJPO)
Chinese Taipei Functional Food Industry Association (TFIA)

7 Benefits of FFC Products for MMSE

1. Contribute to improve Quality of Life for people in aging society
2. By using systematic review for substantiation, no human clinical study is needed for function claim
3. Enable to change commoditized agricultural products to value added product
4. Appeal new innovation
5. Higher ROI than FOSHU type products
6. Potential global reach by unique function
7. Able to obtain local government support

Thank You!
