

“Capacity Building Workshop for Energy Efficiency and Conservation Policy” (EWG_205_2024A)

APEC Expert Group on Energy Efficiency and Conservation (EGEEC) Meeting 2025
10 April 2025, Hong Kong, China

Yasmin Fouladi
Researcher, APERC

Outline

- Background
- Project Outline, including Objectives
- Outputs
- Schedule

Background

- This project seeks to support APEC members in **capacity building** for **energy efficiency and conversation policies** as they work towards the energy transition.
 - ▶ The **workshop** portion will be held in conjunction with the **second biannual meeting of EGEEC**.
- The need for **capacity building** is especially high in **the diverse APEC region** where members are in various stages of development with different energy resources, infrastructures, and economic situations.

Project Outline

Project Title	Capacity Building Workshop for Energy Efficiency and Conservation Policy (EWG_205_2024A)
Proposing Economy	Japan
Co-Sponsoring Economies	Hong Kong, China; Indonesia; The Philippines; Chinese Taipei; Viet Nam
Objectives	<p>Since member economies must develop their own pathways for energy transition, building capacity for policy formulation is essential. The main objective of the project is to develop policies addressing issues on energy efficiency and conservation.</p> <p>Specifically, the project aims to:</p> <ul style="list-style-type: none">- Identify common challenges on energy efficiency of the member economies;- Share best practices of the selected case;- Propose new ideas to improve energy efficiency of the member economies.
Outputs	<ol style="list-style-type: none">1. Capacity Building Workshop2. Workshop Summary Report

Output: Capacity Building Workshop for Energy Efficiency and Conservation Policy

Date	TBD (to be held in conjunction with EGEE65)
Venue	TBD
Theme	<p><i>[Potential Theme] Pathways Towards Energy Transition: The Effectiveness of Minimum Energy Performance Standards (MEPS) Annotation</i></p> <p>The workshop will showcase member economies' implementation of MEPS in the buildings sector (services and residential sector). The contributions from member economies will demonstrate how increasing MEPS leads to the reduction or more efficient use of energy.</p>
Draft Agenda	<ol style="list-style-type: none">1) Host Economy Presentation2) Presentation Discussion with Policy Review from Experts3) Presentations by Economies on their respective MEPS4) Final Discussion with Experts – Observations and Recommendations

Schedule

Date	Actions
May-June 2025	Identify and Invite speakers
July-September 2025	Send General Information Circular
September 2025 (TBD)	Workshop in conjunction with EGEEEC65
March 2026	Submit Workshop Summary Report

Thank you.
