Customs tariff

The rates of customs duties applied to the goods imported to the unified customs territory of the Customs Union (the Republic of Belarus, the Republic of Kazakhstan and the Russian Federation) are determined by the Common customs tariff of the Customs Union of the Republic of Belarus, the Republic of Kazakhstan and the Russian Federation.

[\(Russian\)](#)

The [electronic database](#) has been created for the users' convenience to search for the acting customs rates. By indicating the commodity code (according to Commodity Nomenclatures for foreign economic activity of the Customs Union - TNVED CU), one can quickly obtain information on the actual customs tariff rates regarding certain type of goods.

TNVED CU is based on the international Harmonized Commodity Description and Coding System (HS) of the World Customs Organization. From 1 January 2012 the new 5th revision of the Harmonized Commodity Description and Coding System will be effective. Currently the TNVED of the CU is being amended according to the new version of HS. The Russian Federation will provide information on the customs tariff in English when the new revision of the Common customs tariff will be approved and amendments introduced.

Rules for Determining the Country of Origin of Goods

Currently, the following procedure is applied to determine the country of origin of goods originating from:

(a) member states of the Commonwealth of Independent States, and member states of the Customs Union. [Agreement of the Governments of the CIS Member States of 20.11.2009 “On the Rules for Determining the Country of Origin of Goods in the Commonwealth of Independent States ”](#)¹

[\(Russian\)](#)

(b) developing and least developed countries. [Agreement between the Government of the Russian Federation, the Government of the Republic of Belarus, and the Government of the Republic of Kazakhstan of 12.12.2008 “On Rules for Determining the Origin of Goods from Developing and Least Developed Countries”](#)

[\(Russian\)](#)

(c) other countries which the Russian Federation provides (or does not provide) most-favored-nation treatment. [Agreement between the Government of Russian Federation, the Government of the Republic of Belarus and the Government of the Republic of Kazakhstan of 25.01.2008 “On the Common Rules for Determining the Country of Origin of Goods”](#)
