The APEC Secretariat is seeking proposals for the APEC Economic Policy Report 2016: Case Studies on Services and Structural Reform.

1. Background

At the second Structural Reform Ministerial Meeting held in Cebu, the Philippines in September 2015, Ministers instructed the Economic Committee (EC) to focus on “structural reform and services” for the 2016 APEC Economic Policy Report (AEPR). Australia, the Philippines, Korea and Peru (as 2016 host) will lead the drafting of the Report.

To take this forward, case studies on structural reform in services sectors in APEC economies will be undertaken. The case studies will provide in-depth expert analysis of successful services reforms in the region, complementing the Individual Economy Reports (IERs) which will be submitted by each economy as part of the AEPR process. Drawing on findings from the case studies and IERs, lessons learnt and recommended good regulatory practices to undertake structural reform in services sectors will be identified. This will include findings on prioritization and sequencing of reform measures, balancing competing policy objectives, addressing adjustment issues and the identification of areas where targeted technical assistance/capacity building would be useful for economies undertaking similar reforms in future.

This project complements an earlier PSU project titled “Case Studies on the Role of Services Trade in Global Value Chains (GVCs)” which aims to analyse case studies of market-opening services reforms in the APEC region and the effect they have had on GVCs.

2. Objectives of the Project

This project aims to:

1. analyse five (5) case studies of market-opening services reform in the APEC region;
2. drawing on the case studies and findings from the IERs, identify lessons learnt and good regulatory practices to sequence/manage structural reform to maximise benefits and flow-on effects for the entire economy.

3. Scope of Services

3.1 Description of Services

This project consists of the following:

1. Five (5) Case Studies, each covering:
   i. an overview of the services sector before the reform;
   ii. the market-opening reform(s) that was/were undertaken, including the drivers for the reform(s) and method of implementation;
   iii. lessons learnt from the reform process that other APEC economies could benefit from;
   iv. the impact of the reform(s) on the economy and region as a whole, including: economic, social, and trade and investment impacts (including impact on GVCs, where possible)
   v. next steps in the economy reform process (if any).
2. Findings/Conclusions: Based on analysis of the above case studies and the IERs, a summary of key findings, recommend appropriate policy options and good regulatory practices that APEC economies could adopt when reforming their services sectors should be provided.

The five (5) case studies will be selected by PSU out of submitted proposals from interested consultants. Consent will be sought from economies identified for the case studies. Sectors likely to be covered include professional services, distribution, financial, telecommunications, and transportation (or sub sectors thereof), logistics services, etc.
The consultant will draw on public domain information to prepare the background. In preparing the case studies, the consultant will do desk research and consult the participating member economies and/or interview the experts involved in each reform to validate the results of the desk research, if necessary. Quantitative and qualitative methods will be used to determine the impact of the reforms.

The PSU reserves the right to either award the entire project to one consultant or to several consultants, depending on the merit of each individual case study proposal. In case a consultant expresses interest in doing all five case studies, it is suggested that the interested consultant, nonetheless, develops each case study as a standalone project proposal, with different research teams if necessary. The PSU will evaluate each individual service sector case study proposal.

3.2 Expected Outputs and Timelines

The consultant will provide the following deliverables for each case study:

a) **Inception Report**, outlining and highlighting some key ideas, bibliographic surveys and approaches to determine (quantify, when possible) the impact of reforms. It should have a preliminary discussion of the service sector under study and the context for the sector reform.

b) **Draft Report 1**, containing draft case study and findings for submission to EC2 in August 2016.

c) **Draft Report 2**, containing draft final case study and findings as well as incorporating preliminary comments from PSU and other expert reviewers.

d) **Final Report**, containing the final case study and findings, and incorporating all comments received from the PSU, APEC economies and/or other reviewers.

The timeline for the deliverables is as follows:

The Bidder is required to prepare a detailed itemized budget in submitting their proposal for each case study, which may include a specification of consultancy fees and administrative support charges, with unit cost and the number of hours/days proposed to be devoted to the study by individuals and in aggregate. [Please refer to RFP Schedule 2 – Proposal Template]

Proposal costs are to be presented in Singapore Dollars and should not exceed a total amount of SGD 125,000 (if only one consultant does all five case studies). Each case study is allocated a budget of up to SGD 25,000. Proposals above this amount which can provide a detailed justification for a higher cost approach and evidence to demonstrate value for money will not be excluded. Travel costs for attending APEC meetings, if necessary, will be separately funded on the basis of economy airfares and reasonable accommodation costs.

3.4 Qualifications of Bidder

a) The consultant should have previous experience doing analytical research work, especially making impact analysis. While strong quantitative capability will be an advantage, a demonstrated capacity to handle challenging research questions and creativity in addressing them will be most relevant.

b) The consultant is expected to work closely with PSU Project Lead.

c) The PSU may award the project to one consultant who could do all the case studies or award each case study to different consultants.

9.2 For the purpose of Clause 9.1, “claim” shall mean all demands, claims and liabilities (whether criminal or civil, in contract, tort or otherwise) for losses, damages, legal costs and other expenses of any nature whatsoever and all costs and expenses (including without limitation legal costs) incurred in connection therewith.

10 DEFAULT

10.1.1 failure to perform an obligation under the Contract within the agreed time; or
10.1.2 failure to deliver outputs of satisfactory capability, quality or reliability.

10.2 In the event of a Default by the Contractor, the APEC Secretariat shall write to the Contractor setting out the Default and the time by when the Contractor must fix it. If the Contractor fails to fix the Default within the time specified, the APEC Secretariat may immediately terminate the Contract by issuing a written Notice of Termination to the Contractor.

10.3 Termination under this clause does not affect the rights and/or remedies either party may have accumulated up to the date of termination including the rights and/or remedies the APEC Secretariat may have in relation to the Default.

11 RIGHTS IN DATA

11.4 The Contractor consents to the APEC Secretariat’s use of the Contractor’s own intellectual property and/or confidential information if the APEC Secretariat requires the Contractor’s own intellectual property and/or confidential information to use the Services.

11.5 The Contractor shall protect all intellectual property and/or confidential information belonging to the APEC Secretariat vigorously to the extent permissible by law. If the Contractor has a reasonable suspicion that there has been any event that infringes the rights of the APEC Secretariat in relation to its intellectual property and/or confidential information, it will inform the APEC Secretariat immediately in writing.

12 CONFLICT OF INTEREST

12.1 The Contractor warrants, agrees and undertakes that neither it nor its employees, servants and/or agents has any arrangement, interest, activity, or relationship that could impair the Contractor’s ability to act impartially and effectively in the delivery of the Services as required by this Contract.

12.2 The Contractor shall exercise its responsibility in the best interests of the APEC Secretariat and shall not engage in any activities that would conflict with this Contract.

12.3 If the Contractor becomes aware of any actual or potential conflict of interest as defined in Clause 12.1 and 12.2 above, the Contractor shall immediately notify the APEC Secretariat in writing of (i) any such actual or potential conflict of interest and (ii) the procedures it intends to implement to resolve any such actual or potential conflict of interest.

16.3 Upon receiving a Notice of Termination, the Contractor shall submit a final termination settlement proposal to the APEC Secretariat. The settlement proposal must include a certification from the PSU Project Lead of the actual costs the Contractor has incurred.

16.4 If the Contractor fails to submit the termination settlement proposal within seven (7) days from the date of the Notice of Termination, the APEC Secretariat may in its sole discretion determine the amount, if any, due to the Contractor following the termination.

16.5 Upon termination of the Contract, subject as provided in this clause and except in respect of any accrued rights, neither Party shall be under any further obligation to the other.

23 **WAIVER**

23.1 A Party’s failure, delay or relaxation in exercising any power or right it has under this Contract does not mean that the Party has given up (i.e. waived) that power or right.

23.2 A Party exercising a power or right does not stop it from:

23.2.1 further exercising that power or right; or
23.2.2 exercising any other power or right under this Contract.

26.3 Where the Contractor thinks there is likely to be a delay in performing an obligation under this Contract because of a Force Majeure Event the Contractor shall:

26.3.1 immediately notify the APEC Secretariat in writing of:
   26.3.1.1 the likely delay and how long the Contractor thinks it will last; and
